

Country Risk Map (CRM)

Equipping **superyacht captains, crew, managers** and **owners** with **essential knowledge** about **maritime risk** in the world's most popular cruising and yachting destinations

Whether you are planning to sail in or close to a known area of risk and need up to date information on threats at sea, or are looking for information about the situation ashore in relation to crime, political unrest or just the general safety to your passengers and crews, the Country Risk Map, compiled using professional intelligence analysis techniques and procedures, will simplify how you monitor superyacht security threats.

The CRM is mobile and tablet friendly

Curated by Dryad's team of intelligence analysts, it provides the latest information on threats at sea and ashore in over 90 countries, and covers the Mediterranean, the Caribbean, Southeast Asia and many other popular yachting destinations.

The Country Risk Map gives subscribers:

- ✓ Mitigation by information to facilitate faster and safer operational decisions
- ✓ A single, aligned source of information for operations and security teams
- ✓ Confidence they are operating with up-to-date, unbiased intelligence
- ✓ Access on the move with a mobile & tablet friendly design

Order Risk Assessments at the touch of a button

Key Features:

Clear, concise, cost-effective

Simple interface and concise information make it easy to understand the level of risk in the countries you are planning to visit. The Country Risk Map is also tablet and smartphone friendly.

Risk overviews for over 90 countries

Get the latest information on threats at sea and ashore in over 90 countries within regions including the Caribbean, the Mediterranean, East and West Africa, the Middle East, Southeast Asia and South America.

Make informed operating decisions

Get an at-a-glance overview of the current global risk picture from our team of leading maritime intelligence analysts, allowing you to make immediate yet informed operating decisions.

Enhance your Maritime Domain Awareness

Receive an overview of country risk levels, with information on last incidents ashore and at sea, as well as other valuable information to enhance your maritime domain awareness.

Intuitive design, simple to use

Transit and port Risk Assessments from Dryad Maritime can be ordered at the touch of a button, and pages are auto formatted to make printing easy.
